Welcome to the future. Welcome to DataGen Scholar.

Jack and Jill of America Program

DataGen Scholar

DataGen Scholar – Jack and Jill of America Program

Future-Ready Leaders, Family-Centered Learning.

Duration: Any four month period between October 2025 – September 2026

Program Overview

The DataGen Scholar – Jack and Jill of America Program (DGS-JJAP) is a tailored, accelerated version of the flagship DataGen Scholar initiative, specifically designed to align with the goals of Jack and Jill of America (Jack and Jill). With 271 chapters and over 50,000 family members nationwide, Jack and Jill is a powerful network dedicated to preparing future leaders through cultural awareness, educational development, health education and advocacy, civic engagement, and social enrichment.

The DGS-JJAP program provides students aged 13+ with foundational knowledge in artificial intelligence (AI), generative AI, and AI ethics, paired with real-world applications through micro-jobs and a capstone project. Additionally, it enhances family engagement by including monthly meetups with mothers, ensuring alignment with Jack and Jill's mission of family-centered enrichment and leadership development.

The program is designed to be:

01

Accelerated: Completed within four months.

02

Hands-On: Includes practical micro-jobs and a capstone project.

03

Accessible: Families incur no costs; instead, they are encouraged to donate to support similar programs for underserved families worldwide.

04

100% Online: Delivered through a fully virtual format, allowing participation from all 271 Jack and Jill chapters nationwide without geographic barriers.

Family Engagement:
The Role of Mothers

A unique strength of DGS-JJAP is the intentional integration of mothers into the student learning journey. This approach ensures that the program is not just an experience for students but a family-centered initiative that aligns with Jack and Jill's mission of cultivating leadership through collective action.

Kickoff with Mothers: Mothers are involved from the very beginning, ensuring they understand the DGS-JJAP's goals, structure, and expectations. This shared foundation empowers mothers to actively support their child's learning and reinforce Jack and Jill's commitment to parent-led development.

Monthly Meetups with Mothers: These meetings serve as opportunities for collaboration, accountability, and inspiration. Mothers receive updates on their child's progress, gain insights into the AI concepts their children are learning, and obtain strategies to extend these lessons into everyday family life. They are also given a space to ask questions, share experiences, and strengthen bonds across chapters.

Capstone Celebration: At the conclusion of DGS-JJAP, mothers are invited to the capstone pitch and closing session, where students showcase their projects and reflect on their learning. This creates a celebratory moment for families and highlights the success of Jack and Jill's holistic approach to youth development.

By integrating mothers into the program structure, DGS-JJAP ensures that students receive support not only academically but also culturally and socially creating a family-powered model for future-ready leadership.

Program Timeline
& Curriculum

Month 1

Foundations of AI

Participate in Kickoff with Mothers (30 minutes):

This session officially launches the program for participating families. Mothers will be introduced to the program's goals, learning outcomes, and engagement opportunities. The kickoff event aligns students and parents, reinforces Jack and Jill's commitment to family-centered programming, and provides mothers with practical guidance on how to support their students' progress throughout the program. Additionally, it establishes a communication loop between program facilitators and mothers, ensuring transparency and support from day one.

Take the Assessment Exam (30 minutes): A short diagnostic to measure baseline knowledge of AI concepts, ensuring students start at the right level.

Begin AI Fundamentals Certification (5 hours):

- Lesson 1: Understanding Artificial Intelligence
- Lesson 2: Introduction to ChatGPT
- Lesson 3: Understanding Machine Learning

Total commitment: 6 hours

Month 2

Deepening Knowledge

Participate in Monthly Meetup with Mothers (1 hour):

This session are designed as interactive check-ins with mothers to monitor progress. Facilitators will share student milestones, highlight upcoming lessons, and provide strategies for parents to reinforce learning at home. Mothers also can share feedback, ask questions, and discuss how students are applying their new skills in real life, such as in schoolwork, extracurricular activities, or community service. This family engagement strengthens accountability, fosters a supportive learning environment, and aligns the program with Jack and Jill's five-point thrust areas of education and advocacy.

Complete AI Fundamentals Certification (5 hours):

- Lesson 4: Large Language Models (LLMs) Concepts
- Lesson 5: Generative AI Concepts
- Lesson 6: AI Ethics

Total commitment: 6 hours

Month 3

Generative AI & Responsible Use

Participate in Monthly Meetup with Mothers (1 hour):

This session build on previous family engagement efforts by focusing not just on progress updates, but also on practical application. Mothers will learn how their children can responsibly use AI tools for academic projects, civic service, and creative activities. The discussions will also cover how families can demonstrate ethical technology use at home, reinforcing the program's focus on transparency, bias awareness, and responsible AI practices.

Complete the Generative AI & AI Ethics Courses (5 hours):

- Generative AI Tools: ChatGPT, MS Copilot, Google Gemini, Zeely AI, Murf AI, Sora, Soundraw, Synthesia
- AI Ethics: Transparency, Bias Awareness, Data Privacy, Accountability, Human Oversight, Responsible Use

Total commitment: 6 hours

Month 4

Real-World Application & Capstone

Participate in Micro-Job Experience (5 hours minimum, paid $15/hr): Students apply program learnings to the workplace within local Jack and Jill chapter, affiliate, small business, not-for-profit, or SaNDAI.

Complete the Capstone Project Pitch & Closeout Session (2 hours): Students present their micro-job experience and reflect on learning outcomes with mothers and chapter leaders invited to celebrate their achievements.

Total commitment: 7 hours

Bonus Opportunity – Health & Safety Training

Free access to PPST Academy (1 hour): A dynamic training on performance safety, nutrition, hydration, sleep, and life-saving emergency response related to sudden cardiac arrest, exertional heat stroke, sickle cell trait, and asthma.

Learn more

Program Commitment

Total Program Hours: 25 hours

Bonus Opportunity: 1 hour (PPST Academy)

Format: 100% Online (virtual meetups + self-paced virtual coursework)

Program Pricing & Donation Framework

- **Program Value:** $949.99 per participant
- **Family Cost:** $0
- **Model:** Each participating family is invited to make a voluntary, tax-deductible donation to support program delivery for underserved families worldwide. Your contribution not only helps expand access to life-changing opportunities but also qualifies as a charitable tax write-off for your family.

Sample Donation Framework:

$100 Donation: Supports one underserved student's program materials	**$250 Donation:** Supports partial scholarship for one student	**$500 Donation:** Supports micro-job placement and mentorship for one student	**$1,000 Donation:** Sponsors a full scholarship for one underserved student

This model allows Jack and Jill families to participate at no cost while building a legacy of service and impact across communities globally.

Unique Value for
Jack and Jill Families

- **Leadership Development:** Students gain technical skills, ethical grounding, and confidence through AI education.
- **Real-World Experience:** Paid micro-jobs ensure students apply their knowledge in meaningful ways.
- **Family Engagement:** Mothers remain actively involved through structured monthly check-ins.
- **Global Service Impact:** Families contribute to expanding educational opportunities for less fortunate youth.
- **Nationwide Accessibility:** The 100% online delivery ensures equal access for all Jack and Jill chapters, regardless of geography.

Conclusion

The DataGen Scholar – Jack and Jill of America Program is more than just a learning opportunity; it serves as a leadership accelerator that prepares young people for the future of work while fostering their commitment to service, ethics, and family. By combining AI education with hands-on experience, family involvement, and a donation-based model of equity, this initiative embodies the spirit and mission of Jack and Jill: to prepare leaders for a better tomorrow.

Delivered entirely online, the program is accessible to all 271 chapters nationwide, removing geographic barriers and ensuring that every Jack and Jill family can participate fully. Together, Jack and Jill families will not only equip their children with essential future skills but also empower underserved youth around the globe to dream, learn, and lead.

A Message from the Program Leader

Claudette Keen

We created DataGen Scholar to open doors for students who may not have envisioned themselves in technology, data, or AI. This program is not just about learning; it's about earning while learning, building confidence, and preparing for the jobs of tomorrow.

This movement is bigger than any single student. It is about shaping the future workforce and ensuring that every community has a stake in the AI economy. With your support as parents, donors, and partners, we can prepare the next generation not just to adapt to the future, but to lead it.

Welcome to the future. Welcome to DataGen Scholar.

Claudette Keen

Jack and Jill Program Partner

Madetric Nafaye Wood

I am a Nurse Practitioner, entrepreneur, and community leader dedicated to advancing healthcare access and empowering youth. I own and operate a primary-care outpatient practice in Florida that delivers innovative, patient-centered care. As a committed mentor and volunteer, I precept Nurse Practitioner students, provide care at the HANDS Clinic of St. Lucie County, and serve as Co-Lead Teen Advisor for Jack and Jill of America, Treasure Coast Chapter, where I guide teens ages 12–18 in leadership, service, and scholarship.

I believe every Jack and Jill child should have the opportunity to participate in programs like DataGen Scholar – Jack and Jill of America. This program equips our youth with essential skills in data, technology, and leadership, preparing them to thrive in a future where innovation and knowledge are the keys to success. It is an investment in their growth, confidence, and ability to make a lasting impact in their communities and beyond. Nearly 30 students between the Treasure Coast and Suncoast Chapters will begin the DataGen Scholar – Jack and Jill of America program in October 2025, and I could not be more excited to see the transformation it will bring.

I warmly invite other Jack and Jill mothers or chapters to reach out to me at madetricwood@gmail.com if they have questions about the program or would like to explore how their children can participate.
